Community Webinar

## Sustainability subnetwork meeting

10th June 2026

14:00 CEST

This webinar will explore best practices in sustainable transport and mobility, highlighting how science parks and innovation hubs can accelerate the transition to a greener future. We will examine the vital role of bridging the gap between academic research and industrial application to foster innovation in the mobility ecosystem. The session will conclude with a dedicated Q&A session for all participants.

### Featured Presentations

**MobiNexus – Dr Eleni Anoyrkati Coventry University Science Park, UK**

Dr Eleni Anoyrkati will present MobiNexus, a pioneering initiative designed to bridge the gap between academia and industry. The presentation will focus on strategies to accelerate innovation within the transport and mobility sector, with a particular emphasis on navigating the "triple revolution" in mobility. Attendees will gain insights into how collaborative frameworks can fast-track the development of sustainable transport solutions.

**Mobility Innovation Network Platform – Dr Slobodan Mitrović Faculty of Transport and Traffic Engineering, University of Belgrade, Serbia**

Dr Slobodan Mitrović will introduce an AI-powered matchmaking and collaboration platform. This digital tool is designed to connect diverse stakeholders across the mobility ecosystem, including startups, research institutions, industry leaders, and public authorities. The talk will demonstrate how technology can facilitate more efficient partnerships and drive collective progress in mobility innovation.
